AMERICA URGES PEACE CONGRESS OF WORLD'S SOCIALISTS

The cell and lawisation of American Socialists to the Socialists of the world to hold an Entrondinary Peter Sension of the International Socialist and Labor Congress is as follows.)

The Socialists of the United States of American offer shelr deepest sympathy and their brotherly hand to the European workers now in the midst of a world war.

It is unnecessary to dwell upon the raveges of this terrible conflict. History will sit in judgment. But we must express our sorrow that workmen of the modern international brotherhood and solidity, the today arrayed in bloody combat sgrained to pass, judgment upon the conduct. We can be sufficient to the pass of the victims of the present victions industrial, political and military systems and that they did the best they end under the circumstances.

Our country, however, has remained neutral in the present conflict. We therefore consider it our duty to address an appeal in favor of peace to our unfortunate comrades in he hations at war, as well as to our comrades in nations not at war.

We are not now concerned as to what government

was the aggressor in this terrible conflict, nor is that the question of greatest importance. History will alt in judgment on this also. We appeal to you in the name of Socialism, and acting in agreement with your own preclamations, we sak you to help us to story have a clared that this war was not of your choice. Your noble and eloquent declarations still hold good. We know that no nation can gain by the contuntion of this war. Whatever rewards and advantage will come from it will go to the ruling classes; will cancerfice, suffering and sorrows it will entitle will all the better the workers. And every day that the slaughter continues thousands of our comrades and brothers are killed.

At the International Coogress in Stuttgert's resolution was adopted by which the International Socialist movement pledged itself not only to make swery effort to averathe outbreak of war, but also, should war break out to strive with all our might to bring the war to a speedy termination.

The Socialists of the war-stricken European countries have worked faithfully and heroically in the spirit of the first part of this resolution.

silenced by the cannon of the hostile armies. Capitalist militarium proved atronger than the young spirit of Socialist brotherhood.

The Socialists of the world must now proceed at once to the realization of the second clause of the resolitation—To work for the apecdy termination of the war.

The International Socialist Bureau does not function at the present time. Therefore the Socialist party of America deems it its duty to invite all countries represented at the International Bureau to send their regular number of deligates to an extraordinary peace session of the International Socialist and Trace Union Congress, to be held either in Europe or in America, at a date to be fixed as soon as acceptances are received from the various Socialist organizations represented in the Bureau.

date to be fixed as soon as acceptances are received arou-the various Socialist organizations represented in the Bureau.

We request the Socialist party, or other labor body entitled to a delegation at the International Congress, to indicate its preference as to whether the congress and beet in Europe or America, offering the suggestion that globice be made between Copenhagen and The Hague. We earneally invite our comrades to meet in the United States, at Washington, D. C., and in case our Eu-

ropean comrades decide to meet in America, in order to statist in the success of this congress, the Socialities party of America offers to pay all the necessary exponent of five delegates from every tation emitted to twenty worse, and disposed from every tation, the minimum to be two Orlegates, according to the repre-sentation outstillabled by the International Socialities flow

maintains a stabilished by the International Socialist portent.

The agends of this congress shall be the discussion of ways and meants to most speedily and most effectively atop this war, and such other matters is may pertain to the subject of World's Pesce.

Comrades, in the name of the past achievements and future hope of humanity, in the name of the welfare of future generations, we issue this call and arge your favorable and immediate response. We ask that action bet taken at the rarliest possible moment and reply made according to the directions herewith from our Nadonal Executive Secretary.
